

I Have set the clock times of three for alarm clock. Please modify the set time for your time, maybe late 20 min. you can test the alarm clock, it cannot work on the phone installed by apk. I am sorry to take your time.

```

when Clock1.Timer
do
  initialize local num to call Clock1.FormatDateTime
  instant call Clock1.Now
  pattern "hh:mm a"
  in
    set Image_10h.Picture to join "num"
    quotient of call Clock1.Hour
    instant call Clock1.Now
    + 10
    ".jpg"
    set Image_1h.Picture to join "num"
    modulo of call Clock1.Hour
    instant call Clock1.Now
    + 10
    ".jpg"
    set Image_10m.Picture to join "num"
    quotient of call Clock1.Minute
    instant call Clock1.Now
    + 10
    ".jpg"
    set Image_1m.Picture to join "num"
    modulo of call Clock1.Minute
    instant call Clock1.Now
    + 10
    ".jpg"
  if or
    get num = "07:00 AM"
    get num = "12:05 PM"
    get num = "06:00 PM"
  then
    call Player1.Start
    set Label_messageRecorded.TextColor to magenta
    set Label_messageRecorded.FontSize to 35
    set Label_messageRecorded.Text to "\n\nYou Should Take a Medicine Now!!\n\n"
  
```

Modify time here first!

Click the bell with ON and wait!
