

Así es mi base de datos:

Así lo grabe los campos con inventar 2:

Asi estoy intentando leer la base de datos y cargar el listview o spinner:

```
when Button1 .Click
do
  set FirebaseDB1 . ProjectBucket to " baseliceo-57e6a-default-rtdb "
  call FirebaseDB1 .GetTagList

when FirebaseDB1 .TagList
  value
do
  set Label1 . Text to get value
  set ListView1 . Elements to get value

when ListView1 .AfterPicking
do
  call FirebaseDB1 .GetValue
  tag ListView1 . Selection
  valueIfTagNotThere " "
```
