EDUCATION

B.E. in Computer Science Panjab University

11/2022 - Present

CGPA- 8.82/10.00

PERSONAL PROJECTS

Pokedex App

- In this project I have used Compose with MVVM along with libraries like retrofit (for network calls), palette (for detecting dominant colour), Dagger- Hilt (for dependency injection), Coil (for Image Loading), along with all these I have used my custom paging logic.
- Using all these along with the PokeApi I am fetching the data from this server and displaying in on my app in a beautiful dynamic UI.
- <https://github.com/Varun-Sethi-Dev/PokedexApp>. 

Inventory App

- In this Project I have used the local Room Database for storing the data of the items inside a warehouse which the user can edit later on. Using Kotlin Coroutines for execution of Database Queries.
- All the above features have been added maintaining the app architecture.
- <https://github.com/Varun-Sethi-Dev/InventoryApp.git>. 

Multiplatform Calculator App

- In this Project I have worked with Compose Multi-platform which in a framework for multi-platform applications to run natively on Windows, IOS, MACOS, Android with writing code only at one place for the UI and Business Logic.
- https://github.com/Varun-Sethi-Dev/Calculator_with_Compose_MultPlatform. 

SKILLS

Android App Development

Kotlin

Java

XML

Jetpack Compose

API

MVVM Architecture

Data Structures

J-Unit Testing

Firebase

Git

GitHub

CERTIFICATES

IIT Kharagpur DSA in JAVA (07/2023 - 10/2023)
